

# Artificial Christmas Trees

Choose the perfect tree for your home. Shop in-store for our full range & a selection online.

## Our Buying Guide

### Size Guide

When buying an Artificial Tree, remember the tree will look much bigger in your home than it does in the store. Tree sizes vary from 4ft to 8ft, with 6ft & 7ft trees being the most common for modern homes.

### Style

**Classic:** A-Frame tree offering you a great tree at an affordable price.

**Premium:** These high end trees are fuller and more luxurious with an abundance of branches.

**Natural:** As the name suggests, they look and feel the same as their natural counterparts.

**Snow Flocked Trees:** Ideal for people wanting their decorations to have that outdoor wintry feel.
